We are easily accessible by public transit from the Sunshine Coast and other areas with bus stops at Marine Drive @ 15th Street.

Welcome to our office

The goal of root canal therapy is tooth retention and the prevention/elimination of infection. As Certified Specialist in Endodontics only root canal related procedures are performed in our office. Because your dentist referred you to us, he/she has demonstrated a personal concern for the quality of your dental care.

We will give you a treatment fee estimate during your consultation. Each patient is responsible to us for our fee at each visit unless other arrangements have been made. We will complete your dental plan forms upon treatment completion to expedite your plan's reimbursement to you. We accept Visa, Mastercard, Debit Card and cash as a method of payment.

X-rays will be taken in our office.

Please visit www.rootcanalspecialist.ca for more information.
